Attention: Debbie Spakoss^{CC}

Dear Ms Spakoss:

Here is the list of locations in the City of Livonia which are connected to City sewers, but have no City water service, and can be assumed to have wells. As we discussed, this is by no means a complete list of all wells which exist, as it does not include those locations with neither City sewer or water service (and therefore do not appear in Water and Sewer Department records). Also not included are wells existing in addition to City Water Service (normally used for irrigation).

I am sorry we couldn't be more help, but I hope this list will be of some assistance to you.

Sincerely,

Thomas Moore
Water Foreman
